## Student Conduct

It is the intention of the Board of Education that the district's schools help students achieve maximum development of individual knowledge, skills, and competence and that they learn behavior patterns which enable them to be responsible, contributing members of society.

The Board, in accordance with state law, shall adopt a written student conduct and discipline code based upon the principle that every student is expected to show respect and follow accepted rules of conduct. The code also shall emphasize that certain behavior, especially behavior that disrupts the classroom, is unacceptable and may result in disciplinary action. The code shall be enforced uniformly, fairly, and consistently for all students.

All Board-adopted policies and Board-approved regulations containing the letters "JIC" in the file name shall be considered as constituting the conduct section of the legally-required code.

The Board shall consult with parents/guardians, students, teachers, administrators and other community members in the development of the conduct and discipline code.

The rules shall not infringe upon constitutionally protected rights, shall be clearly and specifically described, shall be printed in a handbook or some other publication made available to students and parents/guardians, and shall have an effective date subsequent to the dissemination of the published handbook.

The superintendent shall arrange to have the conduct and discipline code distributed once to each student in elementary, middle, junior high and high school, and once to each new student in the district. Copies shall be posted or kept on file in each school of the district. In addition, any significant change in code shall be distributed to each student and posted in each school.

In all instances, students shall be expected to conduct themselves in keeping with their level of maturity, acting with due regard for the supervisory authority vested by the Board in all district employees, the educational purpose underlying all school activities, the widely shared use of school property, and the rights and welfare of other students. All employees of the district shall be expected to share the responsibility for supervising the behavior of students, and for seeing that they abide by the established rules of conduct.
