3.00 Work Session

3.01 UIP

- Mrs. Hartley, Elementary UIP was presented to the DAC committee this week. Note there are edits for this draft. We know our plan is successful as we were at 74 percent performance rating before COVID. We are now at 50 points in our performance rating. Some of the pieces for that are mobility. We had a population change of 30-50 students. 48 students moved out of our district, 59 percent of those students left on grade level. Only 32 percent of students arriving were at grade level and it only got worse from there. We are not changing our program as we know it works, but we have had students come in not at grade level.
- Our goals had to be reduced Math and reading is 55%, and CMAS is now 45%.
- Mr. Barnes, This is the secondary school 6-12. We combine both of ours for the district. 180 students, about 22% of our students have IEP. We are doing fine in my opinion. College ready for the State in Language is 470 our language score was 477. Our students who come through the elementary program have a strong core and we are seeing this now.

3.02 BOCES Contracts

- Ms. Klunder, I put the contracts in the packet in and on the agenda in case you have any questions about their services. Mr. Davis, what is ECEA? Mr. Barnes, I think that is the Early childhood Education Act. Because of our Free and Reduce numbers we get money back. The legal service, I can call and speak to her right now.

3.03 Narcan

- I stole the wording to add to our policy from Falcon. The language says per Colorado State law, we can administer medicines to counter act drug overdoses. We had two employees trained on Narcan. We have the Narcan

on site right now. When calling 911after administrating Narcan, have them put flight for life in the air as it does not last long in the system.

4.00 Motion to adjourn at 7:04 PM by, Mr. Howard second by, Mr. Davis
